

Lesson
Luke 15:1-10
Lost, Found, Celebrate

Many years ago, we lost our dog. He is a great dog and gets along with everyone.
He loves to run around our fenced in yard and he howls with the
church bells when he's out.

One day someone left the gate open to our yard and he was gone. We were all upset.
My husband drove around in our car looking for him and I printed up flyers to put
around the neighborhood (this was before Facebook). We were getting really worried.
Then my husband found him a few blocks away playing on a porch with some children.

When my husband brought him home, we were so relieved and happy to have him back,
we cried with tears of joy, hugged him and gave him some of his treats.
He was lost but we found him.

Does something like this happens with you? You lose a favorite toy or something very
special to you, and when you find it you're happy and jump for joy that you found it.

That's what Jesus talked about in this lesson. He doesn't have to go looking for
those who are already following him, because He knows where they are.
But he does need to go find those who are lost and bring them to him.

We can help by telling others about Jesus through our words and actions.
And when someone is found and brought to Jesus we can all celebrate!

Prayer

Dear Father, Thank you for your son Jesus.
Give us the courage and know how to find
those who are lost and bring them to you. Amen

Lesson Lost, Found and Celebrate Sheep Craft Directions

Luke 15:1-10

Materials

Templates

2 Paper plates (9-inch) &/or 2 pieces of cardstock

Scissors

Single hole punch

2 Metal brads

Cotton balls (approximately 1 dozen)

Glue

Markers

1 - 12" piece and 1 - 8" pieces white yarn

2 wiggle eyes

Large craft stick (optional)

Directions

Print templates onto cardstock, cut and use them, or cut the head out of one paper plate and the ears out of another tracing the cardstock templates onto the plates...you can also just draw your own.

Punch the holes where they are marked on the templates with hole puncher.

Glue cotton balls to the top of the sheep's head. (be sure not to cover punched holes)

Attach each of the sheep's ears using a metal brad. (be sure to put the brad through the second hole on each ear.)

Use markers and draw on a nose and mouth.

Glue on wiggle eyes.

Cut a piece of yarn about 8 inches long and tie one end to the leftover hole in one of the ears and the other end to other ear (the ears should be at the side of the sheep's head when the yarn is extended)

Cut a piece of yarn about 12 inches long and tie one end to the center of your other string.

Attach large craft stick with glue and tape (don't obstruct yarn) to hold sheep while wiggling ears. (optional)

Now you can wiggle your sheep's ears!
